A halt has been called in the removal of the Broadway bridge, the County Commissioners laying claim to the structure as property of the county, and will enjoin its removal by the city. It is the intention to erect a concrete or steel bridge in its stead and move this structure to the foot of Locust street, across the same stream.

Mrs. Sarah Strait, wife of Milton Strait, the tobacco buyer, and aged nearly 54 years, died last Saturday night of a complication of diseases, after much suffering, at their home on East Fourth street. Between eight and nine o'clock last Friday night the tobacco warehouse of Turner Bros., on East Fourth street, was discovered on fire and was a mass of flames when reached by the fire department in only a few minutes after the alarm was sounded. The fire is said to have started in the rear of the building and from some unknown cause, totally destroying it. The building was valued at \$2000 and contained upwards of 60,000 pounds of trash tobacco and over 200 cases of Spanish, Seed Leaf and Dutch, partly insured.

Brokaw of the Methodist church, and under the auspices of the Masonic lodges of this city and Ansonia. Interment was made in Greenville cemetery.

Joseph Martin, who was born on the Martin homestead in Washington township, this county, was found dead on his premises on Tuesday of last week, having been stricken with heart failure while at his barn preparing to come to town. He was the father of Ora and Ira Martin, railway mail clerks, of this city. He was aged nearly 73 years and is survived by a daughter, three sons, five grandchildren and two brothers; his wife died on February 12, 1881. Out of Sight.

"Out of sight, out of mind," is an old saying which applies with special force to a sore, burn or wound that's been treated with Bucklen's Arnica Salve. It's out of sight, out of mind and out of existence. Piles too and chilblains disappear under its healing influence. Guaranteed by Wm. Kipp's Sons, druggist, 25c.

THE DESIGNER FOR MAY.

So many people have come to regard The Designer as the most reliable authority in matters of dress that it is with added interest we note the coming of the May number.

Mary Kilsyth has for the time left the realm of interiors in the home decoration and taken up the subject "Attractive Gateways". She says: "If the real importance of the entranceway to a home were appreciated there would be more attention paid to investing it with some attractive quality."

Women who are casting about for a way to make their own living had better read about "The Mail Order Business" in the "Interest of Bread Winning" series for May.

Grace Aline Luther tells you how to make for yourself "A Short Lace Coat of Fancy Braid". You may not be a lace maker, but you can become one, professional or amateur, by reading these articles of instruction in detail.

The fiction and general articles in the May number are above par for entertainment and usefulness.

One Sided Girl.

"She has pretty hair," the athletic girl admitted, "but it is never dressed evenly. The right side always looks much better than the left."

"That is because she never moves her bureau," said the wise girl. "Her room is so small that she can't haul things around, so month in and month out her looking glass stands in the same corner by the window, and month in and month out she dresses with her right side to the light and the left in shadow."

"Consequently one half of her face and hair is well groomed, while the other half gets only a lick and a promise. Any girl who would avoid looking one sided must dress one week with her right side to the window, the next week with her left side to the light."

Get Lightweight Hats.

Never buy a heavy hat if it is possible to get a light one. Insist that hats if made for you are made with the minimum of weight. Heavy hats cause headaches, gray and falling hair by impeding the circulation. A heavy hat worn only two or three hours a day is responsible for the feeling of heaviness that attacks so many and that disappears as soon as the cause is removed or within half an hour afterward. It is well to have hats differing in their point of pressure on the head so that in changing from one chapeau to another the head may be rested, in sections at least.

Had You Planned to do Any Papering?

Well, by far the most particular part of all your plans is to make sure that the right paper goes on the walls. The cost of the paper is worth considering—but style, newness, suitability is your main lookout. For it is quite possible for you to pay us 5c a roll and get new designs, while at other places you may pay as high as 40c a roll, and still have patterns away behind the times. The hint should be plain enough. We've a whole NEW stock to show you—a bright, dependable lot of paper. Wall paper that you can buy from in safety without knowing anything at all about Wall Paper quality. We are really anxious to have you see it, for we feel that we can make it profitable for you to do your buying here.
